PROFESSIONAL SUMMARY

Software Development Engineer I with 3+ years of experience developing and maintaining web and cross-platform mobile applications using **JavaScript, HTML5, CSS3, and Ionic Framework**. Experienced in frontend debugging, UI rendering optimization, responsive interface development, and backend integration using C#, .NET APIs and MongoDB. Familiar with React and modern frontend development concepts, with a focus on application reliability, maintainable code and user experience.

TECHNICAL SKILLS

- Languages: JavaScript, C#
- Front-End: HTML5, CSS3, Responsive Web Design, DOM Manipulation
- Frameworks: Ionic Framework, React (Learning)
- Backend: ASP.NET Core, .NET Framework, REST API Integration
- Database: MongoDB
- Tools: Git, Visual Studio
- Concepts: Object-Oriented Programming (OOP), Debugging, UI performance Optimization, Cross-Platform Development.

PROFESSIONAL EXPERIENCE

Software Development Engineer I

Bytes Evolution Systems | Trichy | Jun 2023 – Oct 2026

1. **UI performance and reliability**: Optimized application performance by identifying and resolving UI rendering issues, resulting in enhanced application stability and a measurable improvement in user experience.
2. **Feature delivery and quality**: Implemented application features and bug fixes in collaboration with development and QA teams, contributing to debugging, testing and release activities.
3. **Cross-platform application development**: Developed and maintained cross-platform mobile applications using Ionic Framework, JavaScript, HTML5, and CSS3, implementing features and resolving issues across supported platforms.
4. **Backend Integration**: Integrated applications with .NET APIs and MongoDB for data retrieval, processing and application functionality.

EDUCATIONAL QUALIFICATION

Bachelor of Technology (B.Tech), Information Technology
M.A.M College of Engineering and Technology, Trichy
2019 – 2023 | CGPA: 8.46
